Wherever the wind blows
When it blows over the sea
The moonæŠ- sitting high
Waves will rise
Water shapes
Waves will take you, take you there

Surf's up tonight

Summers on hold
It will go running away
YouæŠ³e gotta move now
Get inside
Take that dive
Get inside today

Surf's up tonight
Now I was lonely
And you were too
I met you down at the waterline

Now thereæŠ- something we can do
Now thereæŠ- something left to do
Oh yeah

Surf's up tonight

Wherever you are
When youæŠ®e coming over land
ThereæŠ- a place where you can throw it away
ThereæŠ- a place you can forget
You get wet, itæŠ- free
You get high, youæŠ®e alive

SurfæŠ- up tonight
Come on up tonight
SurfæŠ- up tonight
