

## Midnight Oil "What Goes On"

Visit "[What Goes On](#)" on [MotoLyrics.com](http://MotoLyrics.com)

One things for sure that it's still the same  
That young folk die from some noble aim  
And they live so fast and they die so young  
And we just keep wondering what the hell went wrong  
Cos they live so fast but they die so young  
And we just keep wondering ... what goes on what goes  
on

It's such a shame such a useless shame  
That they have to play such a hopeless game  
And it makes me shake makes me shake with rage  
For a wasted life for nothing gained  
Cos they live so fast but they die so young  
And we just keep wondering ... what goes on

You got everything to live for  
We got everything to live for  
Ain't nothing I want to die for no nothing at all  
But they live so fast but they die so young  
And we just keep wondering one things for sure that it's  
still the same  
That young folk die from some noble aim  
And they live so fast and they die so young  
And we just keep wondering what the hell went wrong  
Cos they live so fast but they die so young  
And we just keep wondering ... what goes on what goes  
on

It's such a shame such a useless shame  
That they have to play such a hopeless game  
And it makes me shake makes me shake with rage  
For a wasted life for nothing gained  
Cos they live so fast but they die so young  
And we just keep wondering ... what goes on

You got everything to live for  
We got everything to live for  
Ain't nothing I want to die for no nothing at all  
But they live so fast but they die so young  
And we just keep wondering
