

Midnight Oil "World That I See"

Visit "[World That I See](#)" on [MotoLyrics.com](#)

In a country that we call home
In a land that's skin and bone
There's a place that's hardly known

Mountains appearing with the sun
Rivers of light, they westward run
Night is draining from the firmament

Railway fettle broken down
On a branch line somewhere south
Off the map and off the world

There is no end to the world that I see
There is no end to the world that I see
There is no end, there is no end
There is no end to the world that I see

As we swing from star to star
We're not going very far
The land is hard and gives no quarter here

The o'cannon garrison falls down
You cannot hear the church bell sound
And the sun beats down and gives no sanctuary

There is no end to the world that I see
There is no end to the world that I see
There is no end, there is no end
There is no end to the world that I see, yeah

As sure as I stand on this place, the spirit comes
Let lightning strike and leave no trace

There is no end to the world that I see
There is no end to the world that I see
There is no end, there is no end
There is no end to the world that I see
