Kill my pain, choose the way  
Waiting for it, I just feel safe  
Calling you, you call my name  
I understand what you say but I don  
I touch your shoulder, I see you pale  
Playing that game you make my plans  
There is goodness in the air  
Take it on, fly  
You will be pure

Somewhere there were some ugly faces  
I choose to take this one

Lick your fingers, move your head now  
Like on a stupid dancefloor  
Keep on smiling, I  
I am everyday torn

Always you in front of me  
Take my hand and speak about your home  
Days don  
I

Somewhere there were some ugly faces  
I choose to take this one

Lick your fingers, move your head now  
Like on a stupid dancefloor  
Keep on smiling, I  
I am everyday torn

Grab it up, see you just, later  
Move it up, keep it up, neighbour  
Grab it up, see you just, later  
Grab it up, see you just, later!

Lick your fingers, move your head now  
Like on a stupid dancefloor  
Keep on smiling, I  
I am everyday torn
