Smoke somethin'

I just bought me a Coupe Deville

Took out the air bag put in a wood wheel

Now all the ATL niggas wanna jack cuz I'm from Texas

Never seen candy with the fifth on the back

I'm comin' down the west end, niggas tryin' to jack

And bust a right Coney Island pop the trunk and
started cappin'

Niggas was happenin' put they Burboun to the floor
nigga

Hard to bust back but I was penetrating they doe

Nigga in PA, it's like the wild, wild west

Cuz we all pack pistols and we all wear vests

When the shit pop out, who gon stunt

Nigga ain't shootin' me first I fin to pop the trunk

[UGK]

[Bun B] - These niggas keep talkin' like they want the
funk

[Pimp C] - But niggas love to talk shit I fin to pop
the trunk

[Bun B] - Runnin off at they dick suckas gettin' it
crunk

[Celly Cel]

You niggas didn't know that I was outta control

Slow yo roll for I put this chopper straight to yo fo

Head you better off dead than to fuck around with
psycho niggas

Don't be trying to plead yo case cuz I don't even like

no niggas

In my face, trying to question me about some drama

Only answer to two people: God and my mama

Far as niggas tryin' to put me in the cross,

Let 'em holler at my bitch, Nina Ross hoe house boss

I bet you mind somethin' in, run and tell a friend

[?] on the Gin, I think he's set trippin' once again

It ain't no stoppin' me, get at me then I'm dumpin' on

ya,

Ridin past yo funeral hangin out the window slumpin'

on ya

You didn't know, they didn't tell you boy you betta

listen

While I shoot this shit before you put yourself in

that position

Niggas that know me know I specialize in havin bump

You can have the tailway from the shovel so we can pop

the trunk

[UGK]

[Bun B] - These niggas keep talkin' like they want the

[Pimp C] - Smokin' at the tittie bar I had to pop the
trunk

[Bun B]

Under Cali's blue skies, smokin' on chronicles and
chocolate ties

Even when we tell the truth the hoes we lies

Man ain't no disguise, doin' ninety week flies

Ain't got no time for middle men and small fries

Only money conversation and big thighs

Let me talk to your boss man, the nigga wit the pies

And back yo ass up and don't act so surprised

When pistols start to cock, hands start to rise

Nobody move too fast I advise

Or you can catch a hot one right between ya eyes

Recognize I done set me sights on the prize

And put lights out with boom biddy bye, bye's
I'm livin' my life off of rap and weed highs
And act my age but not my fuckin' shoe size
But fuckin' wit us ain't wise
We get crunk, we came to pop the trunk
What, the trunk

[Bun B] - These niggas keep talkin' like they want the
funk

[Pimp C] - I knew he was the police I had to pop the
trunk

[Bun B] - Runnin' off at they dick suckas gettin' it
