Don't wanna be disturbed, I got my swishas & erb
Don't wanna be disturbed, I got my swishas & erb

Sippin' lean, smokin' on some pine
Girl I'm pimpin', got money on my mind
Game is crazy, niggaz lazy, I got heavy fire
[Incomprehensible] put one on it bitch, it's still five for
sure, for sure

Don't wanna be disturbed, I got my swishas & erb
Don't wanna be disturbed, I got my swishas & erb

You know Bun B the business street soulja in the
trenches
Frontline comin' down on twenty four inches
Dope boys hangin' on the corners and the benches
Sayin' it's a drout so it's plenty of heat pinches

Boy, used to come up from the rags to the riches
Plush lifestyle with the bad ass bitches
But now it's like the game is full of nothin' but some
snitches
And wanna be gangsters that's scared to put 'em in
ditches

Fed's takin' pictures so the cameras go click
And video rollin' while I'm holdin' my dick
They follow me around like they doin' they job
But while you watchin' me how many people gettin'
robbed

Lets keep it trill 'cause we already know
What it already is and how it already go
That's why we chop blades comin' down real slow
Pop trunks, swang, riders slam Cadillac door
Pass the swisha let's blow

Don't wanna be disturbed, I got my swishas & erb
Don't wanna be disturbed, I got my swishas & erb

Before we get started, every body roll up one for Pimp

C

Before we go any further, take your lighter, light it up
for me

Now let's go, now let's go and all the girls get down on
the floor

Throw your money in the air and let 'em know

Throw your money in the air and let 'em know

I'm whippin' big wheels, whippin' big wheels

Hope your drink don't spill whippin' big wheels

Tell me how you feel, tell me how you feel

[Incomprehensible] lady on my side, hey

And if you all down for me

Put your hands in the air raise 'em up for Pimp C

And if you all down with me

Put your hands in the air raise 'em up for Pimp C

Don't wanna be disturbed, I got my swishas & erb

Don't wanna be disturbed, I got my swishas & erb
