Race of slaves, followers of the light
Damned is your emblem
Nation de lambs, destroying our lands
And blemishing it's glory
Your rotten blood contaminates our soils
Slaves you are and by the sword you'll die
Hypocritical treachery is your legacy
Total destruction is your destiny
Race of the wolf, offspring of Fenriz
The fight shall last until the end
The brotherhood of traitors shall not deceive us
The wolf howls it's time for war
Subhuman blood flows in torments
Their dregs revolt us and soak our souls
Sons of the Semitic crucified lamb
Return to your filthy fatherland
To your arid oriental desert
Race of the wolf, offspring of Fenriz
The fight shall last until the end
I can hear the wolf's howl
It's time for the final war
