At the first sign of winter's cold
I took your hand in mine
At the first sign of autumn leaves
You took these eyes and made them shine

Just for once
Would you let me be the one
Would you let me be the one

At the first sign of summer's sun
We sat down, watched those waves
But at the first sign of bad weather
You left me searching again

And I wish just for once

[Chorus]
We'd be out of our minds
We'll risk all we could ever know
We'd be running so fast
God couldn't set us to stone
Would you let me be the one
Would you let me be the one

On the night of our lives
You saw straight through these pair of lies
And you gave me the keys to your car
We drove out for miles and miles
And we looked out on those city lights
And shouted out to the stars

Just for once

[Chorus]
We'd be out of our minds
We'll risk all we could ever know
We'd be running so fast
God couldn't set us to stone
Would you let me be the one
Would you let me be the one

I wish just for once
I wish just for once
I wish just for once
Let me hold me you, love
Let me be, let me be the one

Just for once
