[Verse 1]

Give us direction
Shine through the dark
Run with our wishes
Mine disregard

[Chorus]

I don't, I don't wanna give you up
I don't, I don't wanna give you up
We're too young to wonder

[Verse 2]

Run with the ocean
Take what you find
Walk with a whisper
Break wrong from right

[Chorus]

I don't, I don't wanna give you up
I don't, I don't wanna give you up
I don't wanna give you up
We're too young to wonder

[Verse 3]

Feel no perception
Lose every sigh
Feet far from frozen
Break through goodbye

[Chorus]

I don't, I don't wanna give you up
I don't, I don't wanna give you up
I don't wanna give you up
I don't wanna give you up
We're too young to wonder
We're too young to wonder
We're too young to wonder
