There's a problem  
I can't solve it.  
The only way out  
Is too hard now.  
There's another one  
When this ones gone.  
Cant send it alone.  
You can't send it alone.  
And it's all Ive got.  
And it's not enough.  
And it's time to reason out my mind.  
What's a problem soon forgotten.  
Catching up with me and talking  
Of a heros so called perfect life.  
Cant send it alone.  
And this time it's alone.  
And it's all Ive got.  
And it's not enough.  
And it's time to reason out my mind.  
Thinking of ways to keep my time from running out.  
Thinking of ways to keep my pride from running out.  
So many reasons I can give for running out.  
Keep my head down but I still know  
You can't send it alone.  
And it's all Ive got.  
And it's not enough.  
And it's time to reason out my mind.  
And it's all Ive got.  
And it's not enough.  
And it's time to reason out my mind.  
You can't send it alone.  
You can't send it alone.  
You can't send it alone.  
You can't send it alone.  
There's a problem, I can't solve it.
