### "Corner Bar"

Once upon a time in the land of plenty  
The land of lawyers, guns and money  
A funny little thing we all call greed  
Brought my hometown down to its knees

A little bit worried 'bout the shape I'm in  
Baby needs shoes and the wallet's thin  
Got no gas or electricity  
But everybody's singin' in harmony

Sell me up, sell me down  
I be sold out sittin' here hangin' around  
Take my house, take my car  
But you can't take my seat at the corner bar  
Take my crib, take my car  
But I'm keepin' my seat at the corner bar

No block party, everybody's evicted  
No street lights, no runnin' liquids  
I got no room on my credit card  
And I'm three court dates from the prison yard

My credit score's fallen like the New York Mets  
There ain't a debt collector that ain't called yet  
They say, "Money don't talk, it only swears"  
And got me cussing in my underwear

Sell me up, sell me down  
I be sold out sittin' here hangin' around  
Take my house, take my car  
But you can't take my seat at the corner bar  
Take my crib, take my car  
But I'm keepin' my seat at the corner bar

Once upon a time in America  
The politicians went and fell outta love  
There was a raping of the common man  
And left us sittin' here without no plan

Swimmin' through bills like Michael Phelps

Down and out and can't get no help  
The kids are hungry, peepin' French Poodles  
Pickin' through dumpsters for Ramen noodles

Standin' in line with a family to feed  
Tradin' Manhattan for Indian beads  
It's been a long time since we felt good  
Got everybody waitin' on Robin Hood

Sell me up, sell me down  
I be sold out sittin' here hangin' around  
Take my house, take my car  
But you can't take my seat at the corner bar  
Take my crib, take my car  
But I'm keepin' my seat at the corner bar

Once upon a time in America  
The politicians went and fell outta love  
There was a rapin' of the common man  
And left us sittin' here without no plan

Sell me up, sell me down  
I be sold out sittin' here hangin' around  
Take my house, take my car  
But you can't take my seat at the corner bar  
Take my crib, take my car  
But I'm keepin' my seat at the corner bar
