I'm not scared, but this is happening,
I'm not afraid but this is real, this is real.
It all comes at once, from every single direction.
This time i'm not, i'm not sleeping alone.
Could this be real? i've failed you, i've failed you.

I was lying when i said, i was looking up.
I was too scared to show, what i am.
Bare with me bare with me, this is all i have left.
This might be more, than a simple conversation,
conversation.

They dance around in my head.
For quite some time.
Just a thought of cleaning up myself.

I was lying when i said i was looking up.
I was too scared to show, what i am.
Bare with me, bare with me, this is all i have left.
This might be more, than a simple conversation.

I'm not scared
I'm not scared at all.
I stare at the wall, watching my time float away.
It's all been a blur, and nothing will change.
I stare at the wall, watching my time float away.
it's all been a blur, and nothing will change.
I was lying. (I was lying, i was lying) (I was lying)
This is defeat.
