Confusing and scared there is a decision made with  
this choice a child has to pay  
She puts it's life in her hands, and then she destroys  
it's only chance to become someone in life  
You should of thought about the baby before you had  
sex, because you have destroyed a gift from God  
You kill, you destroyed  
Never will this baby be able to grow up or show it's love  
You'll never hear it say I love you, I love you  
God does not give you the privilege to carry a child for  
nothing  
When you kill, you destroy that child's dreams and  
hopes  
How innocent a baby is... how can you put it to death?  
What if you were aborted... you could of never had life  
And now you make a choice to take this child's life  
because it is a burden in you hands  
A burden in your hands  
Destroyed out of convenience  
They put an end to you life because you're too big a  
burden and one that they can not have  
So they take your life before your first breath  
When will it stop, the killings continue

Babies die everyday because of a pro choice made  
Helpless and innocent they are put to death  
Then why did the parents choose to plant a seed and  
then destroy it?  
Pray for the people who are killing the kids of tomorrow  
How desperately they need Jesus Christ in there hearts  
So they take your life because your a burden in their  
hands  
Destroyed our of convenience  
They put a end to you life because you're too big a  
burden and one that they can not have  
So they take your life before your first breath,  
so they take your life brfore your first breath
