(I'm not the same anymore)

This time I am falling further away?  
Nothing has changed, nothing has changed like I said  
it  
would  
faster towards the ground  
that's where they wait where they wait for they wait  
for me  
they enter my veins  
feel them crawling through my skin  
collecting my nerves that they feed to their children  
i swear it has to stop 'cause there is nothing left to  
give, nothing left to give

I'll be the victor  
I will destroy them

I wanna watch them burn it down  
so I can breathe again

Inhale, 'cause after tonight I won't be the same  
Exhale, exhale, to find my feet on the ground

I'm not the same anymore  
I'm not the same anymore

as I sink down into the floor  
and the walls are caving in  
and I don't believe in them anymore  
Now, I try to balance my walk  
I am coming down alone  
and I have to get them out of my head

I wanna watch them burn down so I can breathe again  
I wanna watch them burn it down  
so i can breathe again

One breathe at a time, I'll be just fine 'cause I'll be  
right on the inside  
I steady my hands inside of my shell and wait till  
their backs are turned

Oh, inside of my head where they thought they would  
win  
but i got them right where I want them  
pushed to either side, I'm burning them alive,  
I hear them begging and pleading
