### "Something More"

Visit "[Something More](#)" on MotoLyrics.com

Origin of consciousness,  
Fat acid rhetoric  
Promulgate me mentally  
Twisted to no deity

Something more  
Something more!

Interpret your reality,  
Sell to me no absolutes  
Moral relativity,  
This world is false

Something more  
Something more!

I have a weak soul  
I am of flesh and bone  
I have a spirit  
That cries out to know more  
The speculation seems so vague  
It does not fulfill  
What's real inside of me

Don't pacify spiritual  
Teach me to be me in Christ  
Origin of consciousness  
Spiritual  
I am not what meets the eye
