Let's do this for each other
Let's do this for truth
I give for you, you give for me 2X
Let me take you somewhere, somewhere I cannot
explain
Let me take you, I wanna take you somewhere I cannot
explain
I'm stumbling right in front of you now
I won't refrain from guiding you there

Normal is not so
Normal is not so far

Was it just a dream
Or something much more
We are not alone
Since you agreed to follow
It's all in my head
If you want you can look inside
There's nothing but red
And the mess I've been
It's all in the way
I say what I don't mean and mean what I don't
I need to speak of you and
What is real, what is real 4X

They will never understand
What eats at our insides
They will never understand
What eats at our insides

It's all in my head
If you want you can look inside
There's nothing but red
And the mess I've been
It's all in the way
I say what I don't mean and mean what I don't
I need to speak of you
