Someone has sown me shut and tied me to a bed
They locked me up, locked me up, oh God
This is where they all throw me to the wolves
Dragged behind and trampled on
I can't keep clawing at the jaws of hell

The silence is killing me
Nothing to calm the nerve
Nothing to calm the eyes
Write down my thoughts
And read me my rights
Repeat, repeat, repent and repeat

The cycle never really ends
Till they admit that it's real
The cycle never really ends
Till they admit, they admit that it's real

Everything, everything
Is leaving me wondering
I hate that I'm questioning
You're everything, everything

This is how it seems to me
I've drowned myself in self-regret
This is how I wanna be
This can't be how I wanna be

They just spin in perfect little circles
That's all that they know
They just spin in perfect little circles
That's all that they know, all that they know

Nothing's right, just left alone
Sinking in will be just fine
None of them will ever know
None of them will ever know

Nothing's right, just left alone
Sinking in will be just fine
None of them will ever know
None of them will ever know

Nothing's right, just left alone
Sinking in will be just fine
None of them will ever know
None of them will ever know
