Just drifting along with the world  
Every motion is paranoid and paralyzing  
Give it up or give 'em hope  
Let us all survive the wake

We, we're a race, a human race  
Under the glass behind it all  
Watch us crawl, watch us crawl so fearfully  
I might be wrong after all, I might be wrong  
But weren't we just so delicate yesterday?

Sit back and think about it  
Sleep it off, sleep on it  
Come to, and make your motions  
Sit back and think about it  
Sleep it off, sleep on it  
Come to, and make your motions

Listen up, listen up, listen up  
There's a calling ahead  
A desperation, a falling of man  
We are all lost in the sound, lost in the sound  
Lost in the sound of separation

Hands in the air and love at our sides  
There's gotta be something bigger  
With the beating in our throats  
And the tremble in our grip, this can't be it

I'll come up, I'll come up for peace  
I'll come down, I'll come down for truth  
I'll give in, I'll give up for you

I'll come up, I'll come up for peace  
I'll come down, I'll come down for truth  
I'll give in, I'll give up for you  
I'll give up, I'll give up, I'll give up, I'll give up

The floors are shaking and we've lost our step  
Oh Lord, have mercy, have mercy on us all  
The floors are shaking and we've lost our step  
Oh Lord, have mercy, have mercy on us all, oh
