Shut this thing off, I can't take, anymore
The weight is gone, still I can't, let it go

I can't take anymore
Is this all we are (all we are)
Can you help me sleep again

My body's numb, and what I touch, turns to stone
(oh) The more I learn, (oh) the less I know, (oh) the
more I'm lost

I can't take anymore
Is this all we are (all we are)
Can you help me sleep again
I can't take anymore
Is this all we are (all we are)
Can you help me sleep again

Make me forget all
Cause I can not remember anymore (anymore)
So I can not remember anymore
Anymore
Any

I can't take anymore
Is this all we are
Help me sleep

I can't take anymore
Is this all we are (all we are)
Can you help me sleep again

All
Cause I can not remember anymore (anymore)
Cause I can not remember anymore
Anymore, anymore, anymore
