

## Underwater "Changes"

Visit "[Changes](#)" on [MotoLyrics.com](#)

When I wake up in the morning say I'm waiting for  
changes  
Always thinking of just how strange it is  
When I'm thinking about history  
Slippin' by slippin' by slippin' by me  
We will tell you where to go go  
When you no go to show  
You will see changes  
You will see changes  
You will see changes everywhere you go

When I'm moving through the day and I'm going  
through changes  
Moving in to the next generation  
Yes a little piece of history  
Its chasin' me chasin' me its chasing me  
We will tell you where to go go  
When you no go to show  
You will see changes  
You will see changes  
You will see changes everywhere you go

When the sun sets in the evening and we're living these  
changes  
Making way in this voyage called creation  
Contemplating this life's history  
Stickin' by standing by now its staying by me  
We will tell them where to go  
When you no go to show  
You will see changes  
You will see changes  
You will see changes everywhere you go  
And everywhere it rolls  
You will see changes  
You will see changes  
You will see changes everywhere you go
