Slippin' and you slide you're slippin' up your backside
Slippin' and you slide you're slippin' up your backside
I told the girl come back a quarter till nine
And when she came back she gave me that morning
ride
Give me the morning ride
Give me the morning ride

Don't you ever question me
Why you could never see
Here is where I'd rather be
By myself in the deep
Kickin' this Devils Groove now yes will give you
possibility
Kickin' this Devils Groove now yes will give you
opportunity

Said you wanna kick it in to this Devils Groove
I watch you get fucked up
When you make wrong moves
Kickin' it in to this Devils Groove
We watch you get fucked up when you make wrong
moves
Don't know how to choose them
Said you don't know how to lose them
Well you think you can abuse them
You better learn how to choose them
When you're kicking down in this Devils Groove
