

Underwater "Firestarter"

Visit "[Firestarter](#)" on MotoLyrics.com

So many times before you were walking out that door
maybe you were thinking this could not work no more
things you say to come and question my love
when we started out it was like hand and glove
now you want to come and question my love
when you know girl that I come from above
oh yeah, oh yeah
oh yeah, oh yeah
you're starting a fire and it just won't burn
soon to find out that you will never learn

It's a shame to see you so sad
What a bummer it is you had to go and get mad
Oh you know I said I tried and I tried
tried to make you happy but all you did was lie
Oh you know I said I tried and I tried
tried to make you happy but you're never satisfied
oh yeah, oh yeah
oh yeah, oh yeah
you're starting a fire and it just won't burn
soon to find out that you will never learn

shes starting that fire
I'm feeling all the burn
that fire
she will never learn
