Now's the time to look around and find
Other heads have turned but they won't turn mind
Now's the time to look around and find
Other heads have turned but they won't turn mind
For thousands of years fight for what they want and will
End up disaster if this cap won't seal
Won't seal, till we start to feel
Taking out cold stares
Taking out all anger
Taking out this son of a bitch
A strait up hater
What you see is what you get
And you'll get yours soon baby
What you see is what you get
And you'll get yours too motherfucker!!!
Get it Right!!!
