This place never saw sunlight  
'Cause ebony trees are grand.  
Dreadful roots digging up all ground,  
Fragrance of Death is always near.

[CHORUS:]

A Forest of hundred ages,  
It's shelter for lonely spirits.  
A place of thousand lives,  
It's chasm for stars.

Each stone is more alive than you -  
You sleep in melancholic dream.  
Your time is out. Wake up!  
You can be free. It's Darkness grace.  
Disappear in the Water of Oblivion  
It's enviable prize  
All who die here have forgotten  
Rely on Darkness grace.

[CHORUS:]

Revive your dark  
Necklace of your sins  
Hurl your curse,  
Blaze away!  
Guzzle my thoughts  
And you never be lonely  
Like this dying souls,  
You are Gadfly.
