you miss me now and I know that's true cause you
burned me out with sulfur through and through well my
hands they're tied but if you tried a little harder, a little
harder. My stars they left what could I do? I loved them
then but I don't miss you I guess we all just grow up
sometimes but in your case it takes a little longer. I
don't mean to brag but my new girl's getting hotter
everyday I don't mean to nag but I just don't enjoy your
company, and girl I'll, I'll admit that I slept for daylight
savings then, but don't call me tonight. and she said,
you are not quite the boy I need a girl like me needs
muscle and prestige, and with each passing day I feel I
need someone so much stronger well girl I know that
we have lost and I know your hearts been swollen from
the frost and ill say no to your request to thaw it out
cause without out you I'm so much stronger. I don't
mean to brag but my new girl's getting hotter everyday
I don't mean to nag but I just don't enjoy your company
and girl I'll, I'll admit that I slept for daylight savings
then, but don't call me tonight. Well he's hot, he's
smart, he's cool, and he's all I really need. She said
he's hot, he's smart, he's cool, he's not he's not you.
And now she's falling back to me.
