

Unified Theory "Passive"

Visit "[Passive](#)" on MotoLyrics.com

Counting everyday I spend
Counting the days after I've peaked
Passive in the way I stand
Numbing the strong cuts on my hands
I know it's right, when I'm left alone
I feel stronger now, much stronger now this way
Closer, than I ever thought I could be
I believe now
Closer
To who I am
Can't compare a single day
The stories I hear them trade
Comfort comes to me in sleep
Bitterness turned sweet
I know it's right when I'm left alone
I feel stronger now, much stronger now
This way
Closer, that I ever thought I could be
I believe now
Closer
To who I am
Closer, than I ever thought I could be
I believe now
Closer, closer
