"Capital"

Visit "[Capital](#)" on MotoLyrics.com

Waiting, time you heard, open up, where's your love...
Fleeting virus won, shadow peers, share their fears...
I can't make you see the world, Just look inside your
crowns above
So were you here? Were you here?
Woven in this holy life, blind kids cannot see the lines
So were you here? Were you here?
Painting the skies in drift, focus up, where you're
from...
Feeding the mouths you lost, hold them near, mend
their tears...
The fields, brought us the downgrade
Greed, brought us this downgrade
