Unspoken misery new times,
New fears to beat unwanted disesteem the pains of a
nomad
Feel lost,
Blind vagabond omitted filth to none
Afoot seamlessly the rott of a dead man
Faith, i am left isolated the shit pissed
And hated condemned life secluded frigid, not
included
Abandoned left dead unwanted dead man
Myself, my pot of dreams
Deserted all that's me
Unwanted family the pains of a lone man
Bleeding society take all,
Fuck dignity breakdown my will to be
The son of correction
I didn't want to be lone and scraped on...
