## "Fractured Archetype"

Suspended deep within the cognition storm  
A shattered perception of existence evermore  
The depression born futility burning inside  
Fuels the vortex of this mental suicide  
Ingesting the darkness as we're facing the end  
An injected sequence of systematic descent  
Distorting evolution of the eternal machine  
As we turn the page towards our blank infinity

Subjugated, cyber archetypes the new divinity  
Mutilated, dark mutations of biotechnology  
Desecrated, remnants of the final resistance  
Annihilated, the failed human subsistence

Corroding the existence of this cybernetic mind  
The disconnected genetics sci-cloning inside  
Processing this state of dimensional symmetry  
A million light years inside a cold magnetic dream  
Disseminating this disease of tech-pestilence  
This integrated sequence of systematic descent  
Eradicating the final fragments of reality  
As we turn the page towards a blank infinity

Time Burns life from the mortal frame  
Breaking down the structured bio-machinery

Reborn in this symbiotic state  
True retrogression of humanity

Apathetic as we self disintegrate  
Oblivious to this insanity

Inhuman form ignites, induced from past decay  
Ever frozen in time  
The emptiness of this depleted energy  
Burns forever inside
