Boy, I know a place you'll never wanna leave,
Only in your dreams, it's reality.
(huh huh) Do you wanna go to Magic City with me?
(huh huh) With me?
Anything I want, I'll drive.
What I need, You got it.
A little dance, I'll dance for ya.
Oh, for real? No problem.
Anything you got, if you want it.
That's what I need, I gotcha boy.
Do that dance dance dance.
Come to Magic City with me.

[Verse 1:Royal City]

I'm from the west, but I lean and I rock.
In the club, 20 G's in the watch.
Shortys hard, I gotta make her mine for the night.
She got an apple bottom, my momma feed her right.
I'm like, My name is Royal City girl,
And I was wonderin' if you would take me to your world.
Heard that there's a place you got,
That both me and you could go.
I won't let my momma know,
We could keep it on the low.
So it's on bring me to your city girl,
I could be your volunteer, you'll be my magician girl.
Back to the room, she put me on the chair.
Just a touch of magic her jeans disappear.

[Chorus:Candy Hill]

Boy, I know a place you'll never wanna leave,

Only in your dreams, it's reality.
(huh huh) Do you wanna go to Magic City with me?
(huh huh) With me?
Anything I want, I'll drive.
What I need, You got it.
A little dance, I'll dance for ya.
Oh, for real? No problem.
Anything you got, if you want it.
That's what I need, I gotcha boy.
Do that dance dance dance.
Come to Magic City with me.

[Verse 2:Unk]

Yo. Come wit me (aye), Come wit me (aye).
Aye, girl what's your fantasy?
Yo. Come wit me (aye), Come wit me (aye).
Aye, tell me what's your fantasy.
You see I glide through something new, the chrome is
on the wheels,
I take a trip to Magic City, wanna cop a feel?
The club packed, she wanna pull disappearing acts.

Took her to the VIP, she busted it open and she
threwed it back.
With a little Remy, blowing on on some good chush.
20 stacks, watch it glare, give your shades a better
look.
She loosen up my belt, whispered words that she felt.
Type of friend, do your dance girl, go on and 2 Step.

[Chorus:Candy Hill]

Boy, I know a place you'll never wanna leave,
Only in your dreams, it's reality.
(huh huh) Do you wanna go to Magic City with me?
(huh huh) With me?
Anything I want, I'll try it.
What I need, You got it.
A little dance, I'll dance for ya.
Oh, for real? No problem.
Anything you got, if you want it.
That's what I need, I gotcha boy.
Do that dance dance dance.
Come to Magic City with me.

[Verse 3:Laze]

One minute, two minute, three minute, four,
She dancin' for me now, she's somethin' like a pro.
Call her Miss Houdini cause she's magic with her lips,
Like abracadabra she know where to kiss.
That's somethin' I ain't never seen before,
By the way she move I gotta put her in my video.

This is Magic City, my personal fantasy world,
Where I could do whatever with my fantasy girl.
It's 12 o'clock so she know, how I roll.
By one o'clock, she gonna take it to the floor.
Just like magic, take it down low.
Take me to your magic place, baby I ain't tryin' to wait.

[Chorus:Candy Hill]

Boy, I know a place you'll never wanna leave,
Only in your dreams, it's reality.
(huh huh) Do you wanna go to Magic City with me?
(huh huh) With me?
Anything I want, I'll try it.
What I need, You got it.
A little dance, I'll dance for ya.
Oh, for real? No problem.
Anything you got, if you want it.
That's what I need, I gotcha boy.
Do that dance dance dance.
Come to Magic City with me.

[Bridge:Royal City]

Take me away be my magical chick.
