Jay's back, asap, crowd awaits, they clap Stage black,
gladiator blaze from the playback I take center stage,
a-k spray raps What more can I say that I haven't said
they ask Covered drugs, slung crack, fatherless sons,
sung about that You an feel the real in every one of my
raps Push whips, pull chicks, side step every one of
they traps They tap, them feds dont play fair They pay
rats to say that there Part of your operation, their the
doctor your the patient nigga Open heart surgery, no
anesthesia, lay back No love for us bad boys, take that
Hey thats the chance that we take, tryin' to make that
Maybach Seats way way back Cops versus robbers and
they don't play wit cap guns You learn that, rather
young, hearin bullets whiz through your wave cap Paint
that, scenes don't play back Everyday I wake I see a
wake so I vacate where it's safe at No I ain't scared, im
just afraid that I'll kill you and wind up given all this
paper that I made back And that aint hot, that aint the
jay that I know He use his brain for more than a place to
pull the braids at I'm to high on life, way back If you
crave rap, shave crack, Jay's back bitches
