THE ASTEROID LIGHT

(GCCG) C - - - / F G C - : //

My father was the keeper of the asteroid light

And he slept with a Martian one fine night

From this union there came three,

Two were mutes and the other was me.

G G / G C

Yo ho ho the jets run free

Oh for the life at the speed of c

One night as we were sailing the blue

And singing the well known spaceman's tune

A voice came echoing out of the void

And there sat my mother on her asteroid.

CHORUS

What has become of my children three

My mother then she asked of me

One is on exhibit in a zoo on Venus

The other keeps a telepathic link between us

CHORUS

Then the deuterons flashed in her hydrogen hair

And I looked again and my mother wasn't there

But she telepathed angrily out of the night

To Hell with the keeper of the asteroid light.

CHORUS
