Love

Its a Special Day
We should Celebrate
And appreciate
That you, and me
Found something pretty neat
And that no Sun says this day
is arbitrary...

But is it good excuse would i love to use
baby i know what u do baby i..
I will Love You... I will Love You... I will Love You...

Love..!
I don't need those things
I don't need no Ring
I don't need Anything
Do you, and me, b'cause in your company...
I feel happy you're so happy it can't be...

But is it good excuse would i love to use
baby i know what u do baby i..
I will Love You... I will Love You... I will Love You...

But is it good excuse would i love to use
baby i know what u do baby i..
I will Love You... I will Love You... I will Love You...

So would you be my, honeybee ye ye..
gives kisses all the time, be mine..
Be my.... Valentine...

So would you be my, honeybee ye ye..
sweet kisses all the time, be mine..
Be my.... Valentine...

O O O O O, Be My....Valentine...!
