I don't want to urinate on myself  
I don't want to urinate on anyone else  
Well, i guess that really doesn't matter anymore  
Because i can't control my bladder anymore

Well, i guess it all depends (undergarments)  
Well, i guess it all depends (undergarments)

Step back in the light  
No more soiled nights alone  
But i guess i don't have a care  
Because there's not a load in my underwear

I'm sick of offending everyone i meet (go, go, go, go)  
I'm sick of crying myself to sleep on rubber sheets (go)  
I had an accident today  
I left a soil on a bus seat, i didn't know what to say

But, i guess it all depends (undergarments)  
Well, i guess it all depends (undergarments)

Step back into life (go, go)  
No more soiled nights alone  
Well, i guess that i don't have a care  
If i don't have a load in my underwear
