Don't Go Out Tonight Dear Father

Don't go out tonight dear father  
Don't refuse this once I pray  
Tell your comrades mother's dying  
Soon her soul will pass away  
Tell them too, of little Willie  
Him we also much do love  
How his little form is drooping  
Soon to bloom again above

Don't go out tonight dear father  
Think oh think how sad twill be  
When the angels come to take her  
Father won't be there to see  
Tell me that you love dear mother  
Lying in that cold cold room  
You don't love your comrades better  
Cursing there in that saloon  
Oh dear father do not leave us  
Don't refuse this once I pray  
When the angels come to take her  
Father won't be there to see

Morning found the little pleader  
Cold and helpless on the floor  
Lying where he madly struck her  
On that chilly night before  
Lying there with hands uplifted  
Feebly uttering words of prayer  
Heavenly father please forgive him  
Reunite us all up there
