Yeah

[Rashad Houghton]

You and me got to be  
living life, dignity, integrity, sincerity  
Cause honestly thats how its got to be  
And when you come to that fork in the road  
which way will you go

[nfamous]

Got get your destiny  
Yeah thats what my god advised  
Dont be resistently  
seek someone to help us grow wise  
Cause mentally, spirtual excellence  
Is far beyond any Physical (?)  
acceptance is great, yeah  
But it will be a brittle case  
Trying to please all  
And find a middle space  
where you belong  
as a little kid I dreamt intense dreams  
Now as a grown man, these same intense dreams  
are what I'm chasing  
feel a man amazing, right  
but I can't see how my life  
may have fallen by the waist side

Scenario one

hanging with mates who like to stay high  
fucking up, going out, acting up, getting drunk  
chucking up, acting tough, far too much got me  
copping upper cuts  
while though they keep me snacked up  
killing my soul while I'm high  
head to toe  
but I'm only talking about a possible scenario

[Rashad Houghton]

You and me got to be  
living life, dignity, integrity, sencerity

Cause honestly thats how its got to be  
And when you come to that fork in the road  
which way will you go

[nfamous]

Scenario two

what would I do

not amused

situation I'm facing

got me confused

Back to me and my girl in high school

both 16 years of age

doing what lovers do

confusing independance with ignorance

having unprotected sex

now she falling pregnant

now we stressing bout how our parents going to act

will they kick us out of the house

or will they have our backs

to bring a child into this messy world

could be no more going out

no money for me or my gal

Scenario Three

We get rid of the child

before we get to hear it laugh

or see a smile

live with the grief and keep the pain underneath

like six feet deep may it rest in peace

whats to become of us

god only knows

but you know

I'm only talking bout a possible scenario

[Rashad Houghton]

You and me got to be

living life, dignity, integrity, sencerity

Cause honestly thats how its got to be

And when you come to that fork in the road

which way will you go

life moves on. life flys by

life talking flash back

at the blink of an eye

you and I had best be aware

you and I had best be prepared

[nfamous]

the future said

that only a believedant man

can live a full life and

draw accurate plans  
to understand  
why I choose scenario four  
that be the life I'm living now  
the life I'd die for  
maybe I might score the top of the list  
maybe I might fall but I'm ready for this  
like being offered bullshit  
this steams the cream  
A million dollars for my soul  
or a priceless dream

[Rashad Houghton]  
Faith is a Red Rose, is a red rose  
almost a thought  
but it will grow

[Rashad Houghton]  
You and me got to be  
living life, dignity, integrity, sincerity  
Cause honestly thats how its got to be  
And when you come to that fork in the road  
which way will you go
