You say you want a challenge  
So let's play a game  
There's a four letter word  
That starts with an L  
and ends with an E  
It had a lot to do with  
You and me

After two long years  
You finally realized  
That she was full of lies  
She cheated on you multiple times  
You don't deserve her  
All she did was lie  
Now that she's gone, I'm here  
Always have been  
Always will  
But you had your chance before  
And now I can't do this anymore

[chorus]  
Haven't you figured it out  
I'm always there to turn to  
No matter what  
I'm always here for you  
What can't you see  
You don't belong with her  
You belong with me  
You and me  
That's the way it should be  
But that was two years ago  
Now I just have to walk away  
And let you go

And just tell you  
I told you so

You sent me a message the other day  
You said you missed how it used to be  
Those nights  
When it was just you and me  
It took you along time to

To finally see  
What you're missing with her  
And what you had with me  
You're two years too late  
I've moved on  
And I'm over it now  
I have to walk away  
Because it took you those two years  
To tell me how you really feel  
I'm done crying  
And done with the tears  
Now its time to let you go  
And all I have to say is  
I told you so

[repeat chorus]

Now do you see  
What I've been trying to say  
Remember how we used to be  
I think about it everyday  
But then I realized  
I tried to tell you everything she did  
It's time to let what we had go  
There's only one thing left to say  
I told you so
