Yeah oooooo
Mmmmmmmmm
This couldn't come at a worst time
I thought I'd never see you
How dare you come back in my life?
I guess you haven't heard the news

You're just a memory
Pray and regret
And I'm gunna pretend like
We ain't even met
Ohhhh
I don't remember your name
I'm sorry (sorry idk this part LMAO)

If you think that you're worth it
Now you're dead wrong
Dead wrong
If you think that you're perfect
Now you're so gone
So gone
You're lost and forgotten
Not thinking about you
You're lost and forgotten
I'm now thinking about him
Woahhh
You're lost and forgotten
Forgotten

Is this way you call a change of heart?
Right now you're looking pitiful
Ooo
I made up my mind so don't even start
I ain't the girl you used to know
I'm so much stronger
Ohh then I've ever been
And I hope that you realize
that my futures been with him
Ohhh
I don't even remember your name
I'm sorry but you made it this way

If you think that you're worth it
it now you're dead wrong
dead wrong
If you think that you're perfect
Now you're so gone
So gone
You're lost and forgotten
Not thinking about you
You're lost and forgotten
I'm now thinking about him (i think..)
woahhhh
You're lost and forgotten
Forgotten

How am I suppose to feel
When I gave my all
for nothing
And You never loved me
how could you be so damn cold
Cold
And I can't forget
How you left
Me for her
I thought you said I was beautiful ?
How could you go and crush my soul?
Soul

Yeah
If you think that you're worth it
it now you're dead wrong
dead wrong
If you think that you're perfect
Now you're so gone
So gone
You're lost and forgotten
Not thinking about you
You're lost and forgotten
I'm now thinking about him
woahhhh
You're lost and forgotten
Forgotten

This couldn't come at a worst time
I thought id never see you
How dare you come back in my life
I guess you havent heard the news
