How many cars on the drive are actually yours...?
You never go out for a ride, you keep them indoors
You got a big big mouth
A big big house
Your the king of cribs right now*
A real big hit
No hard shit
I swear that wont change me one bit!

Cause i. wish i was someone else...
Anybody else.
So maybe you might talk to me.
Cause i wish i was not myself
Anybody else.
Then maybe you might notice me

The world will still go on without you
The newspapers still talk about you
And if your ever low
Pick up the phone
I'll be round don't tell a soul
Cause im not you
You're bullet proof
I'm in a crowd and i can't move

Cause i. wish i was someone else...
Anybody else.
So maybe you might talk to me.
Cause i wish i was not myself
Anybody else.
Then maybe you might notice me

Let me in, let me in
Gimme the sunshine all year round
Lemme out, lemme out
Gimme it now
Hear me out, hear me shout
Gimme the munchies, show me around
Lemme out, lemme out
Gimme the reason
Gimme it now

Yeah yeah yeah...
Yeah yeah yeah!
Yeah yeah yeah
Yeah yeah yeah

Gotta big big house
Big big mouth
Big big house
Big big mouth
Big big house
Big big mouth
That's not helping me right now

Cause i. wish i was someone else...
Anybody else.
So maybe you might talk to me.
Cause i wish i was not myself
Anybody else.
Then maybe you might notice me

Cause i. wish i was someone else...
Anybody else.
So maybe you might talk to me.
Cause i wish i was not myself
Anybody else.
Then maybe you might notice me

Yeah yeah yeah
Yeah yeah yeah
