(Francesco De Benedittis/Davide Esposito/Paul Manners)

Alone in time and space and I never really asked to be born.  
I'm just another face with a story that'll make you yawn.  
Who broke my heart and who cares about it?  
I'll play my part... I can't dream without it.

Take me to the top, to the other side!  
Let me feel the power! I can take the ride.  
Never gonna stop! I just gotta fly.  
Throw me from a tower... Gonna give my life!

Another sad motel... What a prize for one more victory!  
You know I've been through hell and I came out with the smile you see.  
I don't deny that sometimes I doubted.  
You won't see me cry... 'Cause my show's about it.

Take me to the top, to the other side!  
Let me feel the power! I can take the ride.  
Never gonna stop! I just gotta fly.  
Throw me from a tower... Gonna give my life!

Take me to the top, show me where to go!  
God it's only music... Oh but it's got my soul.  
Never gonna stop! One and only chance!  
Boy I'm gonna use it! No more "won'ts" and "can'ts"!

Like the flowers in the rain... We all grow with our pain.  
Secret promise deep inside that I no longer hide.
