Baby's got the night light on
Left me room in the bed
A long day with a little one
Oh how she could easily forget

But she loves it when I crawl inside
Come up from underneath
To see her smile
She say's baby, baby, are you sure that i'm your queen?

And i'm not going to say this to win your love
But if I were so what?
I want to touch your face and other stuff
While you hold on to me like a crutch

Oh she loves it when i crawl inside
Come up from underneath
To catch her smile
Baby, baby, baby, would you be my queen?

Then i would be your king
And you can be my queen
I'd be anything
Baby i'm your king

I want to live and love you hard
Make your stomach weak, glue back your parts
Fill your hole with something whole
Captivate your soul

Make you believe in a love song
Make you believe this it too good to be wrong
I can be your king, I can.....
If you would be my queen

When i crawl inside
I crawl inside.... my queen
