I'm sitting here waiting for you to come back to me
But now that you say its over with
You leave me heartbroken

I'm sick and tired of the same game
Your making losing the same old way
It's driving me insane

Go!

What I really wanna say baby is "What Did I Do to you"
What I really wanna say baby is "Sorry for all the pain"

I'm sick and tired of the same game
Your making losing the same old way
It's driving me insane!

What I really wanna say baby is "What Did I Do to you"
What I really wanna say baby is "Sorry for all the pain"

I'm sick and tired of the same game
Your making losing the same old way
It's driving me insane!

What I really wanna say baby is "Sorry for all the pain"

I'm sick and tired of the same game
