Le vent fun?bre, la soupir grise
(la mar?e funeste)
le vent funeste, la soupir crisper
la souris grise.
in a flower-husk
in a nonhouse,
'la maison de la non-maison, puisqu'ils renferment'
in a wash of colour
chevalier aux rideaux
f?netre finale
v?tement ridicule
all horsehairshirts & shrouds to rend—
des langes du langage
la fin d'?tre
(in a dry season)
drapes at the window, the closed the open window
to the veiled world from the curtained sleep
limn?d lethe l'oubli obduratus
le sable fin
'which was not so before'—
false creation, heat-oppress?d brain,
dans la lumi?re des ?toiles malades,
'Come, let me clutch thee—'
