there's a heat down on the street
and it's radiating through my feet
there will be trouble in allston tonight
there's a kid with a silent shout
'cause he's livin' off of hand to mouth
hey generation. i'm talkin' to YOU.

are we did yet?
NO!

street lamps flicker and the young wolves wail

as the vultures drag another off to jail
if they had their way you know
we would've been dead 20 years ago
do you think they really care about you?
NO WAY.

how's this for an answer?
FUCK YOU.
