dead end generation you should live in fear
mass destruction, corruption and no one cares
white is the color of thos ein power
red is the color of the millions slaughtered
blue is the color of the flesh that rots
,urderers go free while some are never caught
it's been said before it's time to listen
tune into the news you don't know what you're missing

lies, decite, injustice

this is how our culture lives

six year olds with fucking guns
run away youth on the fucking run
parents who abuse their kids
yet we're told be proud where we fucking live
proud for crime, proud for death
proud for the fucking poor who tried their best
told to vote, cast your ballot
but the vote only counts if you're the few in power.
