the 90's are almost over and hatred still runs deep  
ignorant fucks in police suits still rule the fucking  
streets  
the poor getting poorer while the rich stay fucking rich  
equality is no where in sight if you wanna win you gotta  
fight

stand up and fight

what the hell are we supposed to do?

violence and despair are threatening to destory the youth  
everyday on the news more murder more rape  
we're living in a dying world from which there's no  
escape

what the hell are we supposed to do?  
what the fuck are we gonna do?  
living in a violent world with no hope for the youth
