Hysteria

Panic stricken public told a bunch of lies,
a city in chaos fearing for their lives,
tales of arms relations made worse than what they are,
informative discoveries - stories took too far.

Hysteria!

I can't believe what I hear,
money talks that's made clear,
chosen people signing forms,
state secrets they are sworn.

Cover up malicious killings,
dirty deeds done by the willing,
a woman killed in cold blood,
no one will tell even if they could.

Panic stricken public told a bunch of lies,
a city in chaos fearing for their lives,
tales of arms relations made worse than what they are,
informative discoveries - stories took too far.

Hysteria!
