Searching for a song
That sings my feelings
Knowing all along
That it won't heal me
Torcherer my tears
I try to make them stall
I didn't mean to fall

Day turns into night
You're still in my head
Even though I fight
To forget what you did
My hand held in yours
You can't deny at all

You pushed me to fall
I didn't mean to fall

Will I ever walk
In different foot prints
Will I ever stop
Crush adolescence
Emotions I hate
And don't wanna feel at all
I didn't mean to fall
I didn't mean to fall
Mean to fall
I didn't mean to fall
