## Verse

So many out there lost  
So many who are sad  
Too many can't find love  
Others wish they never had

What is wrong with the world today  
Isn't the answer clear  
Why is it so hard to see  
That you were always there

## Chorus

There's darkness inside of all the people  
Evil consumes the world today  
Where is the hope in all the people  
Lights getting dimmer everyday

## Breakdown

There's darkness in the people  
But Jesus is the light  
He takes away all of the darkness  
And the night

## Bridge

Without you my future is uncertain  
Without you my past is unforgiven  
Without you the present is an illusion  
Without you the outlook is a grim one

## Verse

Spit on your friends  
Embrace your foes  
They don't really care  
Where your gonna go

Ignore the helpless  
And all the homeless  
Feed your addictions  
Until you die
