

Uranium 235 "Radio Shut Down"

Visit "[Radio Shut Down](#)" on MotoLyrics.com

We get our kicks watching people fall in line
You fill a pig and make 'em sick
Amazing what they're calling a simple way of life
They're looking face down at you, your radio shutdown
says

Your radio, says no, says no
Your radio, says hurt you

Don't want your preaching, 'cause your government
has failed
Those hypocrites, they make me sick
One will lead another and the rest will march in time
Your radio shutdown hurts you, our generation says
fuck you

Your radio, says no, says no
Your radio, says hurt you

Ending all this wasted time
Rain, rain
And all your useless words
Rain, rain
Look to the stars at night
Rain
When you are lost in oz

Don't want to be called a sect minority
We won't break or fade away
We're not a category in your ecological file
Not looking face down at you, your radio shutdown
says

Your radio, says no, says no
Your radio, says hurt you
